

# Cawamo Overview

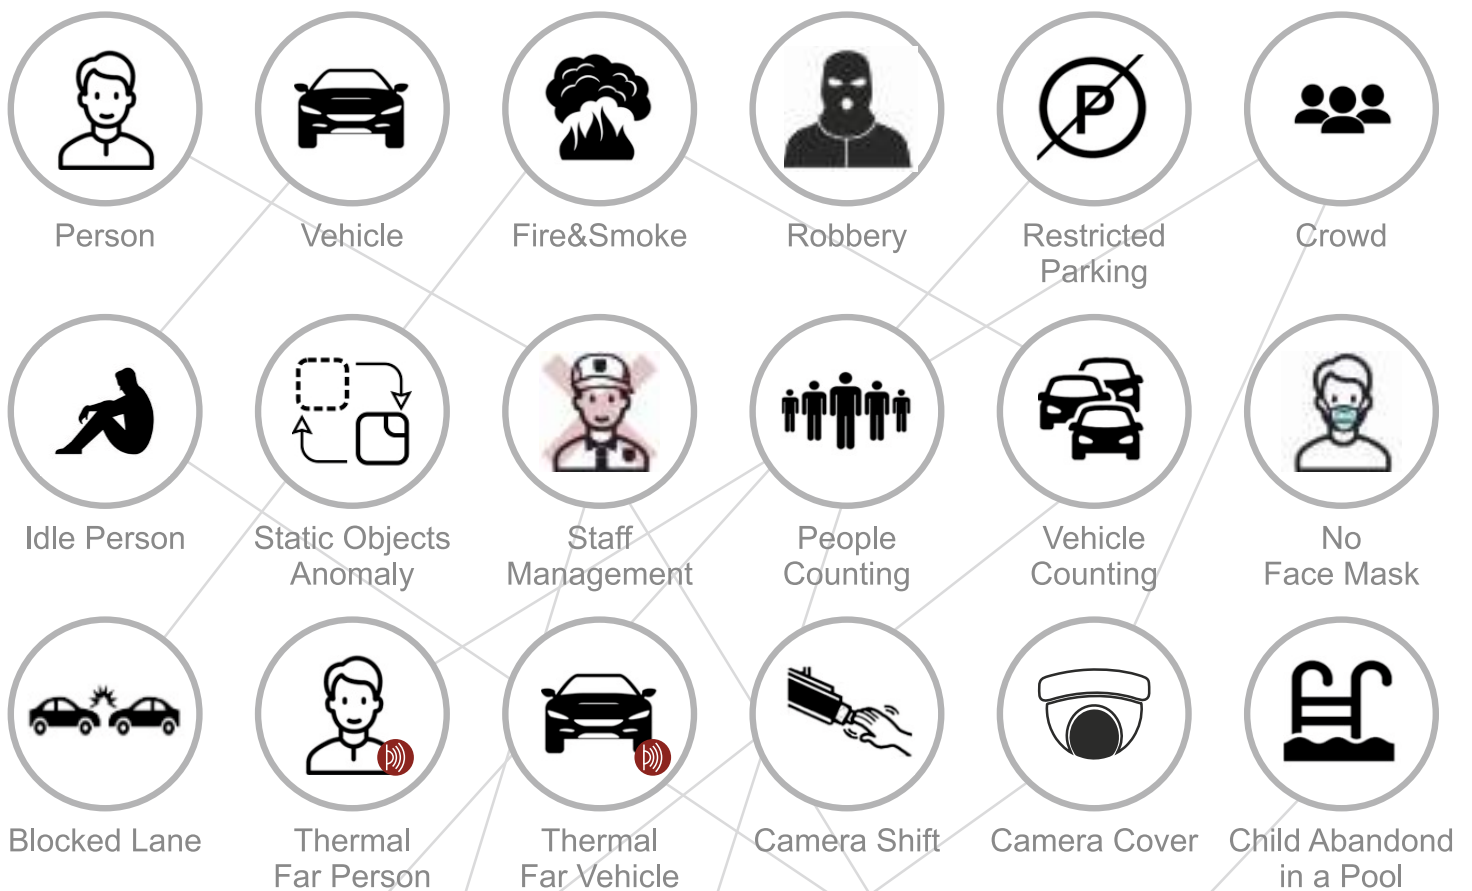

**C**ameras**W**arnings**M**onitoring

Cawamo provides AI-based, easy-to-use, and cost-effective solutions for turning security cameras into intelligent and accurate alert systems. Cawamo offers an end-to-end surveillance solution acting as the brain to the network for multiple security-oriented needs.

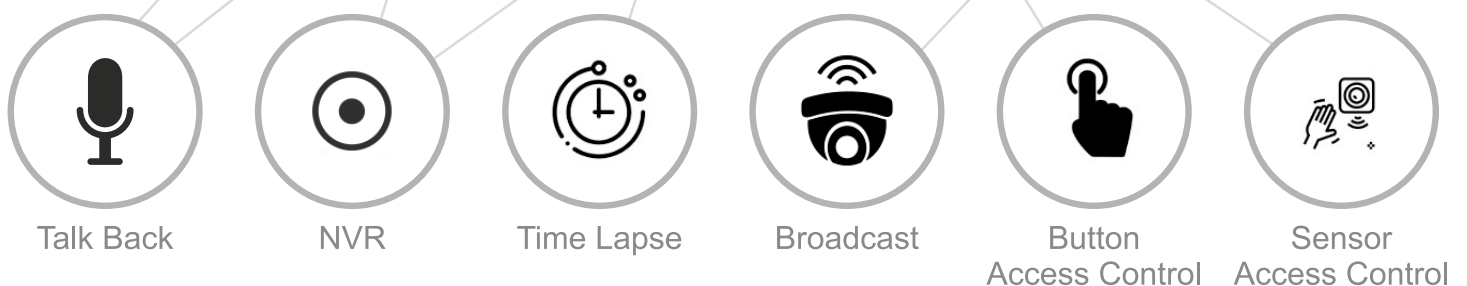

Cawamo brings quality AI alert systems, this is typically available only to critical infrastructure facilities, and Cawamo brings this to the mass market at affordable prices.

## AI Services

## Video & Access Control Services

# Easy Installation & Scalability

Cawamo's hybrid cloud solution doesn't require the traditional DVR/NVR setup or ripping and replacing your entire camera system, making installation quick and easy.

Cawamo's CHAIN (**Cawamo Hybrid AI Network**) Technology is built to withstand the most challenging site conditions and allows any existing 3rd party camera to be easily integrated with Cawamo's bandwidth friendly platform.

# Plug & Play Configuration

Cawamo provides a Reseller Dashboard for configuration and management of your customers

And a simple user interface for viewing of the client's shared sites
